MODERN HEROES (The Lost Album Vol 3)

This is where the story starts
Can you spare some change of heart
If I grow up, I can't pretend There's not a war, I will defend

All I am I owe to you
We lie on words we believe are true
All I have I give to you
It's our life lets
Follow Through

There's no money in my pocket
But I'm rich In my soul
Throw out your resistance
In a big shiny bowl
Love only matters
Don't give that right away
Lawyers get fatter
When there telling you to pray

What the hell do you take us for
I can't fake this anymore
You need us like we need you
It's our world let's
Follow Through

Honey ride my rocket
I rock and I Roll
Baby you can cock It
They won't buy your soul
Love will get you higher
I'm high as a kite
With God's pacifier
It gets me through the night

Who in the hell do you think you are
This time you've taken It to far
I need you like you need me
Black or white the same to me

Got to follow through

This is where the story ends
No more trees no more men
I've grown old I can not mend
Mother Earth be born again

Be born again

May Day In Heaven

I know the bottom line when the arrows pointing up
Send no valentines, I can read an empty cup
She said what's a matter with you
I said what's a matter with me
Bon Voyage relationship

May day in heaven, Our ship is on the rocks
If she gives you the cold shoulder, Head back to the docks

May day in heaven, our ship is in distress
We've got a love that's made in heaven
Send out a SOS

I know wrong from my right
But my left, keep an eye on
Loves like a bird in the sky
Salt n pepper, It's an egg on

She said what's a matter with you
I said what's a matter with me
Bon voyage relationship

May day in heaven, Our ship is on the rocks
If she gives you the cold shoulder, Head back to the docks

May day in heaven, our ship is in distress
We've got a love that's made in heaven
Send out a SOS

Apologies, the best policy, not honesty

SOS, SOS, SOS

I know what's in store, when you toss me a line
I'll go ship to shore, I'm just the guy whose had my time

She said what's a matter with you
I said what's a matter with me
Bon voyage relationship

May day in heaven, Our ship is on the rocks
If she gives you the cold shoulder, Head back to the docks

May day in heaven, our ship is in distress,
We've got a love that's made in heaven
So send out a SOS

May day in heaven, Our ship is on the rocks
If she gives you the cold shoulder, Head back to the docks

May day in heaven, our ship is in distress,
We've got a love that's made in heaven
So send out a SOS

Like Father Like Son

Daddy wasn't born no shining knight
But what he meant to me, he was bigger than life
Mama could of sworn, they were just having fun
When along came me their son of a gun
I guess you don't know what you have till it's gone
Don't let your pride get your tongue

It's much to late when they're dead and gone
Lord let me be like father like son
Your heart will break when you lose someone

Ticking away the time, nowhere else to run
Call me a devil and I will be one
Sunday you're gonna find, you gotta hang on to a prayer
Call me your angel and I will be there

I guess you don't know what you have till it's gone
Don't let your pride get your tongue

It's much to late when they're dead and gone, Oh yeah
Lord let me be like father like son
Your heart will break when you lose someone
Don't let your pride get your tongue

Oh Father, Oh Father

There's a time to be happy and a time to be sad
But I can't help missing my dear ole Dad, yeah
I'll see you in Heaven, our soul's become as one
Lord let me be, like father like Son

I guess you don't know what you have till it's gone
Don't let your pride get your tongue

It's much to late when they're dead and gone
Lord let me be like father like son
Your heart will break when you lose someone
When you lose someone

I'm just 18 years of age
Full of style, all the rage
Got a girl on every page of my book (Rap!)
My favorite tunes, I play 'em out loud
Mom and Dad says, "Turn it down!"
Better change the way you look (Rap!)

I wanna be somebody now (Rap!)
I wanna make you all so proud (Rap!)
I wanna stand out in the crowd (Rap!)
Together, we can break the generation rap

There's really no point in talking back
Growing up is a tender trap (Let's break)
The generation rap (Rap!)
Don't be shy, just move away
Save those words for a rainy day (Let's break)
The generation rap (Rap!)

Dad works hard for his bob
He says, "Hey, son, get a job"
I said, "Hey, man, I'm moving out" (Rap!)
18 years of crap
I feel like I'm in a trap
Inside the generation gap (Rap!)

I wanna be somebody now (Rap!)
I wanna make you all so proud (Rap!)
I wanna stand out in the crowd (Rap!)
Together, we can break the generation rap

There ain't no point in talking back
Growing up is a tender trap (Let's break)
The generation rap (Rap!)
Don't be shy, just move away
Save those words for a rainy day (Let's break)
The generation rap (Rap!)

No point in talking back
'Cause growing up is a tender trap (Let's break)
The generation rap (Rap!)
Dont be shy, don’t be slow(My generation)
Show about what you know(My generation)
My generation rap (Rap!)

Let me tell you what's it all about
I say, I don't want to take the garbage out
All we do is scream and shout (Rap!)
Why can't we get along?
You know, Dad's not well, I'm young and strong
And I love you, Mom (Rap!)

I wanna be somebody now (Rap!)
I wanna make you all so proud (Rap!)
I wanna stand out in the crowd (Rap!)
Together, we can break the generation rap

There's really no point in turning back
Growing up is a tender trap (Let's break)
The generation rap (Rap!)
Don't be shy, just move away
Save those words for a rainy day (Let's break)

The generation rap (Rap, rap) (Rap!)

Ain't no point in turning back

For All We Know

Don't try now
To understand the perfect crime
To know what's yours is mine
But don't cry now

For all we know
Your ring of fire is burning cold
For all we care
When he stole your heart, he stole the coal

Don't cry now
The burning tears of evidence
Melts away your innocence
But don't cry now

For tears is feeling you're not here

For all we know
Your ring of fire is burning cold

For all we care
When he stole your heart, he stole the coal

He stole the coal
He stole the coal
It feeds the fire
It feeds the soul
For all we know, for all we know

Don't cry now
Love is such a funny game
Roll the ice into the flame
Don't cry now for him
He's like an ocean swim

For all we know
Your ring of fire is burning cold
For all we care
When he stole your heart, he stole the coal

He stole the coal
He stole the coal
It feeds the fire
It feeds the soul
For all we know, for all we know

For all we know, for all we know
Your ring of fire is burning cold

Live And Let Love

What should I do what can I say to make you try
To tell me the truth, to do it is saying goodbye

In a minute my whole world tumbles down
The minute I turn away, the tables turn around

How could I ever know, I have to let go

Live and let love, what in the world was I thinking of?
Love, oh love

For the moment, I was letting boys be boys
I found out you meant more to me than just another toy

I'll guess we'll go

We go our separate ways
And them we'll know
And maybe we'll meet someday
And love again

Live and let love what in the world was I thinking of?
My Love, Live and let love
My live and let love ooh

So we'll live and and let love

In a minute, my whole world tumbles down
In a minute, my heart will stop the tears start pouring down

Oh let it rain, on my parade
Oh let it rain, remember the love we made
Oh let it rain, I get on my knees and pray
You're my heaven sent

Live and let love what in the world was I thinking of?
Love My live and let love ooh

Live and let love what in the world was I thinking of?
Love love

So we'll live and let love

What should I do

LOVE IN SPACE

In the car she teases me why don’t I love her
Got to interlock her frequency before she gets a hold on me

How do you do it , Is there sound, is there vision, is there anything to it
Is there anything to it

Is it interresteral

Stole my heart for life support, why don't I love her
Don't you leave me in the dark, energy grows when her ship gets close
An alien affair with slanted eyes and blue tint hair
Where do you love

Love In Space, Oh, Lets make Love In Space
Love In Space, Oh Yeah

In the car she teases me why don't I love her
Got to interlock her frequency before she gets a hold on me

Love In Space, Oh, Lets make Love In Space
Love In Space, Oh Lets make Love In Space

Love In Space, Love In Space, Love In Space, Love In Space

Oh

Modern Hero

You know I cried when I heard you were gone
Suddenly, you were like a film that was on a channel
I'll pretend I heard your name
Gonna say I knew you anyway
You were cool, hung like a fool
In some mental shop

How can I explain
When your heart has stopped beating
I'll say it anyway
Here he comes to save the day

You are my modern hero
You are my modern hero
Anywhere you go, you're my hero

I keep calling to you, I keep calling to you
I keep calling all the time
Hero

Modern hero

You are my modern hero
You are my modern hero
Anywhere you go, you're my hero

Modern hero

You are my modern hero
You are my modern hero
Anywhere you go, you're my hero
Modern hero
Modern hero
Modern hero
Modern hero
Anywhere you go, you're my hero
You're my hero

To Sir With Love

Those schoolgirl days
Of telling tales and biting nails are gone
But in my mind
I know they will still live on and on
But how do you thank someone
Who has taken you from crayons to perfume?
It isn't easy, but I'll try
If you wanted the sky
I would write across the sky in letters
That would soar a thousand feet high
"To sir, with love"
The time has come

For closing books and long last looks must end
And as I leave
I know that I am leaving my best friend
A friend who taught me right from wrong
And weak from strong
That's a lot to learn
What, what can I give you in return?
If you wanted the moon
I would try to make a start
But I would rather you let me give my heart
"To sir, with love"

If Only For A Moment

I believe in you above
But I hope you come right back home
To the ones you love

And I believe in the snow white dove
Spread your wings and fly right back
To the ones we love

If only for a moment
I can look into your eyes
God knows why, God knows I've tried
To understand why he took the one that I loved

I believe in God above
But I hope he brings right back home
The ones we love

If only for a moment
She would open up her eyes
If only for a moment

We Are The Future

You know I reach for a drink
When I get out of bed
Sometimes all I do
Is put a gun to my head
Slip on my red vinyl suit
And my black bowler cap
Then I'm out on the street
Ready to attack

We are the English mod
An army with a style
To fight society
Do it with a smile
A wink of painted eye
As you slide from hand to hand
When we rape your respect
Do you know who I am?

We are the future
We are the future
We are the English mod
You are the one that's odd
We are the shape of things to come
Don't you know it?

I know it's hard for you
To understand anything I do

We are the future
We are the future
We are the English mod
You are the one that's odd
We are the shape of things

We are the future
We are the future

Future, future, will I see?
We are the shape of things to be, yeah
We are, we are, we are, we are
We are the future
We are the shape of things to be, yeah
We are, we are, we are, we are
We are the future
You punk

These Are The Things

Ooh, ooh
Ooh, ooh

Better break out the ice
I've got a good appetite
The bark's worse than its bite
It's now or never, never
You drink and drive me crazy
Goosebumps when I hear your name
If I faint from the heat, forgive me
It's when I saw you that my heart burst into flames

These are the things (These are the things)
These are the things
These are the things that lovers do

I'm feeling high as a kite (Feeling high as a kite)
With you No landing strip in sight (I think that I might)
Parachute tonight and jump forever
You never know what hit you
You send shivers down my spine
Too fast, I didn't see it coming
Too strong for the both of us to fight

These are the things (These are the things)
These are the things
These are the things that lovers do (I know)
These are the things, ooh
These are the things that lovers do

(Ooh, ooh)
Goosebumps when I hear your name
(Ooh, ooh)
In the morning, we'll both feel so ashamed

These are the things (These are the things)
These are the things
These are the things that lovers do
These are the things
These are the things that lovers do
These are the things

These are the things

Singin’ In The Rain

I'm singin' in the rain, just singin' in the rain
What a glorious feeling I’m happy again
I'm laughin' at clouds so dark up above
The sun's in my heart and I'm ready for love
Let the stormy clouds chase everyone from the place
Come on with the rain, I've a smile on my face
I walk down the lane with a happy refrain
Just singin', singin' in the rain

IF I ONLY

The room is full with your scent
Push through the crowds that haven't left (Excuse me)
Saying words | never meant to say
If I only could of left the bar before I spoke with you

If I only told you how much I really cared
If I only

Now it never seems to fail
I'm buying things before a sale
Then I left you in the cold and then I wondered how you were
If I only didn't wash the car before the pouring rain

And If I only told you how much I really cared
If I only, If I only

If I only tried to hold you but much I really scared
If I only

Why is it when I shut my eyes, why is it when I shut my eyes
I still remember what you're like, I still remember what you're like

Empty frames are never, on the wall

If I'd only would of washed the scars before they ever stained

If I only told you how much I really cared
If I only, If I only

If I only tried to hold but I was really scared
If I only, Only

If I only tried to tell you, how much I really cared
If I only, If I only

If I only tried to hold but I was never there

If I only

If I only would of told you what was on my mind
But when you get down to it words are impossible to find
Coincidence maybe but you and I will cry, tonight….
